

PLANE TALK NEWS

9.2013

School has started back up, August has passed us by, but flying season has not. There is still a lot of the flying season left. September and October can be some of the best flying weather.

Lately, we have been having some crazy, unbearable heat. If you are going flying, make sure to drink lots of water and stay as cool as you can.

This heat is also not good on our models. How do you take care of your models in the heat?

We have had several great club fun fly events this year and we still have two events coming up. September 7th is the club family fun fly Please stop out, bring the family, and have A good time. We have the club fun fly event to bring the members together, but anyone is welcome. October 5th is our ever popular fall warbird event. Bring out your favorite warbird and show it off. This is a great event with great looking planes.

The training program is wrapping up for the season. It has been a great success and we want to welcome

all of our new members. We would also like to thank all of the members who helped to keep this program going. We did have a bit of a rough start. It ended up being a very successful year, averaging around 10 students each night. If you are interested in learning to fly, feel free to contact any of the club trainers. These are some great guys who would love to help you out.

One last event to talk about this month is the club's annual fall auction/swapmeet on October 19th. If you have something you're wanting to move or looking for that new plane or project, this is the place. Volunteers are also needed to help out with this event, please contact Jim Lewis.

See you at the field,
Duane

Aug Meeting Minutes

Aug 6, 2013

Bd of Dir 7:00 PM

The subject of shingles for Westfield was again brought up. Having earlier received two bids from roofers, Denis Roy and Keith Page volunteered to reshingle the workshed. The cost is estimated at \$125.00 to \$150.00. They will undertake this job after the weather cools. They asked for one volunteer to help. One member of the club questioned whether or not any flight training could be done outside of the Thursday night training schedule at EPJ. The board is reminding all members that the Thursday night training sessions are a special "Take off and grow" (TAG) program authorized by the AMA for the purpose of providing introductory flight training to non-members, and does not effect the training by established instructors and their member students. Regarding the new building at Westfield, plans were established to insulate and panel the building, and to get a new generator for it rather than purchasing a used one. Duane announced that the 3D fun fly was a great success with a great number of planes as well as spectators being present. Jim Lewis announced that a flying presentation for the C.A.P. was well received and that we received a very nice thank you for it. Two more are scheduled: Aug 14, 9 to 10 AM, at the Millpond Retirement home, and Aug 18, 12:30 - 2:00 at the Catholic church in Ankeny. He also announced that he has new hats and polo shirts available, at \$15.00 each.

General membership meeting, 7:30 PM. 19 members present.

The above subjects and information was presented to the club. No questions, objections, or discussion were raised, so the meeting was then adjourned.

Des Moines Modelaires

- We fly radio controlled model airplanes at two private flying fields.
- Our meetings are the first Tuesday of each month and there is a program of flying interest plus show and tell at each meeting.
- Members are mailed a monthly newsletter.
- We have a club Christmas and Awards dinner.
- The club sponsors Fun Flys and Summer Club Family Picnic Flys.
- We help run the SIG Fun Fly at Montezuma Iowa.
- The Modelaires will demonstrate R/C flying anywhere that we have room to safely fly.
- Members present model building and flying programs to groups in this area.
- We hold a spring swap meet and a large fall R/C auction.
- We have a pilot training program with booklet and award a solo certificate to members that we train (FREE) to fly. There are instructors to help you learn to fly Radio Control!
- We are one of the top clubs in America. You must join AMA before you can join the Modelaires.
